REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Regarding claims 9 and 10: The most pertinent prior art reference, namely the Smalley publication, only suggests crosslinking reaction between synthetic polymers. Therefore, it is neither anticipatory nor obvious to form a bonding material that comprises a set of molecules which is a combination of ligand and receptor or of an antigen and an antibody. Regarding claims 11 and 12: It is neither anticipatory nor obvious to deviate from the Smalley teaching of synthetic thermoset polymers (crosslinkable material) as the coating material to select polypeptide, a natural biopolymer, as the coating material, as required in instant claims 11 and 12. Regarding claims 15 and 16: Smalley suggests the use of coated nanotubes in an electrically insulating matrix (par. [0017]). Thus, it is neither anticipatory nor obvious to deviate from an electrically insulating material as suggested by Smalley to a metal layer, which is an electrically conductive material.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
